THE VEHICLE

In the event of a vehicle being deemed too dangerous to participate, RWYB officials reserve the right to withdraw it from the event on the grounds of the duty of care for others and the rider/driver.

I confirm that my vehicle conforms to the following rules and I acknowledge the recommendations: -

1. It is recommended that there is a secondary braking system for all vehicles travelling faster than 150mph, this can be a parachute or mechanical braking system in addition to a hydraulic system. Any system must be compliant with the applicable regulation at the time the vehicle is used.
2. It is highly recommended that all fuel systems and tanks are separated from the driver. There should be at least a bulkhead between the driver and the fuel lines and tank, if this is not possible it is highly recommended that a fire suit and helmet is worn regardless of speed.
3. Roll cages and harnesses are strongly recommended for all vehicles running quicker than 12 seconds over a quarter mile.
Please note: if you need to install a cage, please consult a specialist or the National Drag Racing rulebook to ensure it is fitted safely and correctly (see RWYB website for details).
4. The use of space saver tyres is strictly prohibited.
5. It is mandatory that all vehicles have the correct amount of wheel nuts.

Additionally I confirm that I (as the driver/rider) understand and acknowledge the following:

1. I understand that a safety helmet is compulsory for ALL competitors. Exceptions to this rule are street cars running under 110mph.
2. I understand that a neck brace is also recommended for ALL competitors using a helmet.
3. Suitable fire suits are mandatory for vehicles running on methanol or nitro and highly recommended for vehicles with nitrous systems.
4. Riders of motorcycles, quad bikes, go karts and anything else deemed similar by the track manager are required to wear suitable protective clothing. ALL limbs need to be suitably covered. Leathers are highly recommended but jeans and a protective jacket is acceptable on slower bikes (a bike you would ride to the track for example). Gloves are mandatory.
5. Arm Restraints are mandatory for all open top and windowless vehicles.

Please note that if you and your vehicle have taken part in MSA/ACU competition, the safety rules and equipment required at a RWYB is the same as any MSA/ACU race event.

The track manager retains the right to refuse track access to any vehicle they deem to be unsafe.
